## GOVERNMENT TRAINING OPEN TO THE DEAF

Deaf government employees will now be able to participate in inter-agency training programs offered by the Federal Bureau of Training to civil service workers. Interpreters will be provided for courses having five or more deaf employees registered.

The completion of courses offered through this program is a significant factor in determining salary increases, job upgradings and promotions of federal government workers. This recent decision is an important step in combating the problem of underemployment faced by many deaf civil servants.

## AROUND AND ABOUT

--A Cooperative Education Workshop will be held on May 8th in the Student Union Building. The day-long program will explore the question of liberal arts in cooperative education as well as the problems and benefits of cooperative education to the handicapped.

--On Monday, the National Planning Committee for Community Education will hold a meeting here on campus. For details, contact Jim Cox in Continuing Education.

--We are pleased to have seven teachers of the deaf from Iran visiting with us this week. In

their third month of a six month program jointly sponsored by the Iranian and United States governments, they will be doing intensive observations at Kendall School.
